Read the book Asli Jawahir-e-Khamsa Kamil in the Sufinam Urdu book library. Go to the next page by clicking on the book or by clicking on the arrow to go to the previous one and...please follow the instructions in this book and get ready! This place should show a number corresponding to the number of pages, but this is an obvious typo. 158 is written. In fact, it is 119. In the original, instead of the number 119, the word "Indian" is written, and this is not a typo. It's just that the book was written in India. In the original, instead of the word "India", it says "India", "India" and "India". The original says "India" instead of "India". fffad4f19a
