Let's call the sum $S = A + B + C$. (It is not necessary that $A + B + C = A + B + C = 0$.) The sum can basically be described as the sum of two S — $S = \dots$ sum in basic algebra = $\dots = \dots$ A sum in basic algebra can be defined as the sum of two (perhaps with some other conditions). This can be defined as a function with multiple arguments.
