Saturday, April 14, 2010 Since I don't have a blog devoted to my fitness goals I am making one. Its my goal to lose 20 pounds by my husband's birthday (9/15/10). I think it will be harder than I thought. When I was gain weight, I needed to loose 2-3 lbs.

a week. I think I will have to start at the beginning. 10 lbs is a lot when you have 3 kids under the age of 5 (2 year old twins). In any case, I started off strong last year. I really felt like I did something for myself and I got a great start. I just need to keep that going. However, I can't focus on the weight loss alone. I need to have an overall goal and I think that means less sugar and more fruits, veggies, and proteins. I also really need to look into some great heart healthy options for dinners. I am not as guilty as I thought and I'm really trying to cut down on sugars. I'm really bad about that. I also need to get into better shape. Running needs to be a big part of my weekly program. I have lots of time to work out and I want to make the most out of my

time. My goal is to do it three times a week at least and make it fun. I'm hoping by my husband's birthday next year I'll be able to say I ran 13.1 miles! I'm hoping to be able to run a half marathon (13.1 miles) sometime next year. That would be amazing but I know it's going to be hard so I'm going to start out
