Link the play: Increased probability of goal-scoring opportunities One of the most vital aspects to scoring a goal in FIFA 22 is its link to the gameplay. "Link the play" is a new feature within the game that has all players dynamically react to your passes. If your attempt to pass crosses the defensive line of players, the player closest to the ball will automatically be in a position to receive a pass, as he will be able to receive the ball without any unwanted restriction from defenders. This new feature applies to "the hub" of the pitch and is based on 12 unique zones. Emulate human player shapes to improve the passing accuracy In FIFA 22, players can now emulate the player shapes of real life football players to improve your passing accuracy. Visualized player models have been re-imagined with unique face shapes and body movements, thanks to Motion Analysis to animate the player 3D models. Emulating player movement provides more freedom and accuracy for your passes. The player motion capture and animations are all generated using such data. Motion Analysis: FIFA 22 is the first game in the franchise to feature procedurally-generated player animations and breathing patterns. A collection of distinct player animations has been created to replicate the realistic behaviour of the players' movement and breath patterns to provide a stronger, more natural and authentic game play experience. In FIFA 22, the new animations and individual breathing patterns will be re-introduced in all the new player faces, using Motion Analysis data from the most realistic motion capture data to date. FIFA's Dynamic Movements, the most realistic football AI ever In FIFA 22, FIFA will attempt to mimic human player movements, the most realistic football AI ever used in a professional sports title. The AI will now understand the structure of each defensive and offensive line and understand body rotations and positional roles. A novel 3D simulation and terrain movement, the AI will now use its own movements and behaviors to get into the face-off with you, choose different passes, and evade tackles. Crosses keep crossing in FIFA 22 with enhanced ball physics In FIFA 22, crosses keep crossing with increased accuracy, all thanks to enhanced ball physics. In this football simulation, the AI takes more time and effort to head and carry the ball into space, creating more opportunities for you to score an own goal or make a dribble run. In FIFA 22, every move

Features Key:

- Authentic Football AI – Experience an authentic football-playing character with the game's unprecedented Artificial Intelligence system that analyses an incredible range of data and feedback from all 22 players in the game world. The football physics engine is also 60 years ahead of any competitor. It senses the differences in a player's style and skill set, in-game actions, strengths, and weaknesses, identifying the best opening combinations in real time. Tactical awareness helps the computer quickly understand a player's patterns and take advantage of them.
- From the very first ball kicked up by the ref to the final whistle, experience the cinematic intensity of real football with precise moments, unique animations, and emotions – all packed into a visual masterpiece as only EA SPORTS can deliver.
- UEFA Champions League – Play, manage, and compete in any one of the 32 leagues from around Europe's most popular competition. Receive managerial advice and tactics recommendations from 16 legendary coaches such as Sir Alex Ferguson, Pep Guardiola, Pep Marquez, Felix Platas, Vitor Pereira, Arsene Wenger, and Marcello Lippi.
- All the players of a single team represented by unique playing styles, abilities, and individual strengths. Ultimate Team also features a visual history of all the players who have played in your club. As your in-game experience grows, you may enter an academy and recruit the best young players in the world.
- Ultimate Team is the first FIFA game to feature "Multi-Player & Knockout", where you compete with thousands of players in football tournaments online. The competition is live and all-out on the pitch like a true tournament. Take on clubs from around the globe, or engage in a domestic or worldwide challenge against your friend's team.
- Transfers' both internal and external. You can now do more with a club like never before in the history of the franchise. Build a squad of some of the world's greatest football stars or make your team of dream players to lead you into the Hall of Fame. New Kits make a great way to differentiate yourself and customize your team's look.
- Free Roam – Free roam, freedom, and accessibility go hand in hand in FIFA 22. Just jump over fences, keep the ball away from construction, and show off a new off-the-ball control

Read on for more. MORE ON FUTURE OF THE GAME This year the FIFA promise starts with the new FUT Draft, a new Draft mode for both new and experienced players. This exclusive new mode allows fans to finally create their dream team. With realistic skill ratings, players' attributes, and fully customizable squads, FUT Draft is a fresh experience for fans and newcomers alike. FUT Draft is also just the start of all the changes that will transform FIFA. This year, we're also making a number of major upgrades to the game and its online mode. Tapping into the infinite resources of the global football fan base, we're open-sourcing all of FIFA's coaching interaction, providing the most direct route to creating the most realistic teams and staff in sports gaming history. Thanks to the footballing community, this year, we've strengthened the core gameplay of FIFA, using feedback from players like you to improve the hit detection in real time and at speed. When players start a new career, they'll notice the game more consistently hits the ball at the correct time and in the correct place, as well as react to in-game conditions like wind. We're also changing the game's physics engine to enable an even more authentic and immersive experience. Finally, we're opening up our game's new season to even more clubs, leagues and nations. This year, 16 new Football Associations will join FIFA Ultimate Team. Additionally, we'll continue to add new teams and leagues throughout the year, and expand players' attributes and equipment by seven categories, from footwear and body to strength and stamina. Fans of every skill level can enjoy the enhanced skills of this year's FIFA with
